Gold	\$100/month	50	<button>Choose</button>
Silver	\$50/month	20	<button>Choose</button>
Bronze	\$25/month	10	<button>Choose</button>
Open Source	\$0/month	0	<button>Choose</button>

Create Organization

Organizations are managed by owners

On the next screen you'll be able to grant administrative access to other GitHub users. These people will be able to manage every aspect of the organization (billing, repositories, teams, etc).

What you're getting with an organization...

- ✓ Manage organization repositories in a shared location
- ✓ Fine-grained permissions for your team
- ✓ An organization-focused dashboard for each team member

Invite your team members

Adding owners to Organisations

[✓ Sign up for a personal account](#)[✓ Set up the organization](#)[Invite your team members](#)

Add Owners to the umkcgraduates organization

kadiyalavenkatesh

vamsikrishna331 [\(remove\)](#) [I'm done here, continue to the organization dashboard](#)

The Owners team has special privileges

Anyone you add to this team will be able to **modify the organization's billing information** and will have **complete access to all repositories and organization information**.

Each owner is equal in administrative capabilities.

Organizations manage permissions with Teams

In addition to the Owners team, you'll be able to create **unlimited teams** with fine-grained permissions to your repositories.

Add organization repositories from the dashboard

After you've set up your Owners team, you'll be sent to your organization dashboard. This is where you'll be able to add new repositories to your organization and manage who has access to which repositories.
