Create an Organization and a Project

An organization lets you group people into teams that work on projects. You can skip this step if you're working on a project someone else created.

Organization name*	UMKC
	The name of your company or team of people.
Project name	ASE
	The name of the project to work on. You can add additional projects later.
Project members	kampati.ramya@gmail.com avani.kapa@gmail.com
	Enter email addresses of members to invite. One per line.
Working on someone else's project	Next Next

up on this dashboard.
